

Aaqua

AAQUA is pleased to announce that it has entered into a definitive SPA with MESH Holdings Plc (“MESH”), whereby MESH acquires an 80.0% and AAQUA a 20.0% holding in Sentiance N.V. (“Sentiance”).

AAQUA since its inception has been working with Sentiance an emerging market leader in ethical AI, machine learning and behavioral insights. The two organisations are working closely together and AAQUA expects that on the back of its live activation combined with some super cool ON device ~ proposition solutions presently being developed between Sentiance and AAQUA, we can open in conjunction with partners and MESH various original and relevant consumer solutions ready for mass adaptation.

AAQUA anticipated that the proposed Sentiance transaction will be closed around 10 March 2021.
